

Give your dog the “spaaaaaah” treatment.

Pamper your dog from head to paw.

Clean. Fresh smelling. And looking good. Your dog gets it all at WagsPark Spa. You'll begin with a free consultation to discuss coat type, breed styling, and any special considerations. Then we bathe and groom your dog in one of our comfortable and secure grooming stations. Start with our Basic Package (cost dependent on coat type), then add on special treatments for extra pampering. Your dog will thank you for it!

Custom Groom Packages Based on Coat Types

Before your dog's first grooming, it's important to identify its coat type, whether one of the six standard type coats, a mixed breed or a designer dog. Identifying your dog's coat type based on look, texture and feel will help us choose the grooming products that will make caring for your pet's skin and coat much easier on both of you.

Skunk Off! Additional \$20

Did your curious pooch have a run-in with the wrong end of a skunk? We can help! Our special odor removing treatment will greatly minimize the scent and make him much more pleasant to be around.
